EXHIBITOR LIST

GRAND HALL 2

09:00
10:30

GLP-1: Consequences
of rapid weight loss
and addressing them

LIVE DEMO

NETWORKING BREAK

11:00
13:00

Personalised
treatment protocol

LIVE DEMO

LUNCH BREAK

14:00
15:00

Rejuvenation redefined:
New approaches to facial
and periorbital aesthetics

15:00
15:30

Biorestitution: The missing
link in comprehensive facial
rejuvenation

NETWORKING BREAK

16:00
17:00

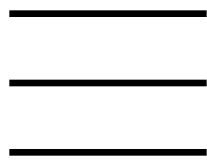

Anticipating
adverse events

16:30
18:00

Rhythms & Refreshments
AN EVENING TO UNWIND

GRAND HALL
GALLERIES
(exhibition)

GRAND HALL 1

09:00
10:30

Combination therapies

NETWORKING BREAK

11:00
11:30

Keynote address: Why we should all stop saying g' in our lectures?

11:30
12:30

Case-based learning: From initial assessment to treatment planning

LUNCH BREAK

13:30
15:30

LYV sciences
Rethinking injectables: New science, new standards, new outcomes

NETWORKING BREAK

16:00
17:00

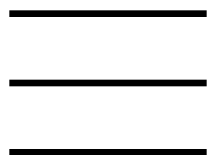

Skincare: What's in? What's out?

16:30
18:00

Rhythms & Refreshments
AN EVENING TO UNWIND

GRAND HALL
GALLERIES
(exhibition)

DODDINGTON FORUM

09:00
10:30

The menopausal patient
in aesthetic practice:
From hormones to
treatment strategy

NETWORKING BREAK

11:00
12:00

Developing your practice

12:00
12:30

Keynote address: Fibroblasts
lineage - on which stage
we are successful with
stimulation?

LUNCH BREAK

13:30
14:30

Regulation, reality and
reform: The future of
aesthetics in the UK

NETWORKING BREAK

15:00
15:15

 **SILARIOUS®**
SAFETY MODE ON
A new way of using
ultrasound in aesthetics

15:20
16:20

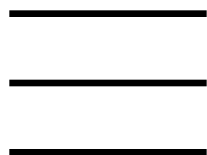

Building a modern aesthetic
practice: Strategy, culture &
sustainable growth

16:30
18:00

Rhythms & Refreshments
AN EVENING TO UNWIND

GRAND HALL
GALLERIES
(exhibition)

GRAND HALL 2

09:00
10:45

Toxin applications

NETWORKING BREAK

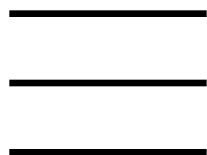

11:30
13:15

Advanced hybrid
regeneration techniques

LUNCH BREAK

14:30
16:30

Injectable approaches to
tissue regeneration

GRAND HALL 1

09:00
10:15

Autologous treatments

NETWORKING BREAK

10:45
12:15

Cellular response
to energy delivery:
Mechanisms of tissue
regeneration

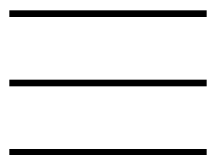

LUNCH BREAK

13:45
15:00

The NEW aesthetic
regenerative medicine
paradigm: How traditional
aesthetic medicine
merges with longevity/
anti-ageing medicine

15:00
16:30

Old and novel anti-ageing
strategies in the practice
of aesthetic regenerative
medicine: From EBD and
HRT to peptides and
exosomes

DODDINGTON FORUM

09:00
10:00

Skin health

NETWORKING BREAK

10:45
11:45

**ABG**

L
A
B[®]

FUTURE FORWARD
SKINCARE

Results in practice:
Clinical case studies in
aesthetic refinement

11:45
12:30

Can topical treatments
regenerate?

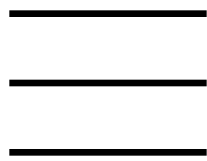

LUNCH BREAK

13:45
14:45

AI in practice: Should
we or shouldn't we?

26 JUNE

GRAND HALL 2

09:00 - 10:30

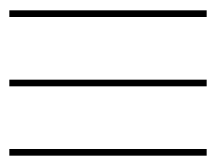

SESSION ID: 8745

GLP-1: consequences of rapid weight loss and addressing them

Consequences of rapid weight loss (GLP-1 facial and body changes) Dr Roshan RAVINDRAN
The medical weight loss revolution: GLP-1 agonist usage its impact on facial aesthetic surgery Dr Jennifer WALDEN
The impact of GLP-1 weight loss medication on the ageing patient Mrs Kate MONTEITH-ROSS
Weight-loss–associated hair thinning: Mechanisms, assessment and holistic management for aesthetic practitioner -Dr Tatyana LAPA-ENRIGHT
The new aesthetic challenge: Managing ‘Ozempic face’ with HA fillers -Dr Ash LABIB
Rebuilding the face after GLP-1 therapy: A regenerative roadmap -Dr Salsabeel ALI
LIVE DEMO The synergistic power of Sculptra® and Restylane® in medication-driven weight loss facial restoration (Supported by Galderma) Dr Ana MANSOURI GALDERMA EST. 1981

26 JUNE

GRAND HALL 2

11:00 - 13:00

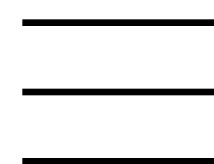

SESSION ID: 8767

Personalised Treatment Protocol

LIVE DEMO The disruptive technology in hyaluronic acid injectables in the last decade (Supported by Evolus) Mrs Amy BIRD, Dr Jennifer OWENS 
Discussion Dr Jeanine DOWNIE, Dr Mario GOISIS, Dr Roshan RAVINDRAN
LIVE DEMO Precision in practice: Advancing microneedling with single-needle technology (Supported by Church Pharmacy) Dr Anoob PAKKAR-HULL 
Discussion Dr Jeanine DOWNIE, Dr Mario GOISIS, Dr Roshan RAVINDRAN
LIVE DEMO Full face beautification of already beautiful individuals Dr Roshan RAVINDRAN
Discussion Dr Jeanine DOWNIE, Dr Mario GOISIS, Dr Roshan RAVINDRAN

26 JUNE

GRAND HALL 2

14:00 - 15:00

SESSION ID: 8763

Rejuvenation redefined: New approaches to facial and periorbital aesthetics

Signaling: how two innovative products signal your body and periorbital area to help them change the way you WANT them to change

Dr Michael KANE

The rise of biological skincare- The new paradigm

Dr Aamer KHAN

Reversing skin aging: P199 and epidermal stem cells

Dr Ruby GHADIALLY

15:00 - 15:30

SESSION ID: 8751

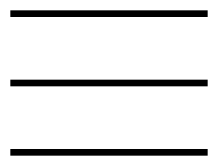

Biorestoration: The missing link in comprehensive facial rejuvenation

Ms Anna BAKER

26 JUNE

GRAND HALL 2

16:00 - 17:00

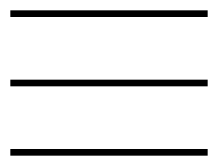

SESSION ID: 8760

Anticipating adverse events

Revisiting lip anatomy: Implications for safer, anatomically respectful filler techniques Dr Steven HARRIS
How to avoid overfilled faces and filler migration - from science to a personal approach Prof. Dr Thilo SCHENCK
Post-filler malar edema - Predicting the unpredictable: Novel mechanism enabling predictable ultrasound-guided resolution Dr Hagai BETZER
Combine method RF microneedling + PLLA: how to achieve great result and to avoid complication Dr Olga ZABNENKOVA
Oops I did it (again): Patient experiences of complications after non-invasive cosmetic procedures Dr Tom DECATES
It's not Tyndall effect Dr Steven LAND

26 JUNE

GRAND HALL 1

09:00 - 10:30

Combination therapies

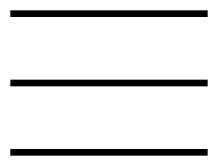

SESSION ID: 8754

20 years behind the evidence: Why retinoids should be paired - not stopped - with lasers & other EBDs Dr Dev PATEL
Synergistic use of CaHa with HA/glycerol for improving skin tone and dermal evenness Dr Aneesha AHMAD
Multidilutional, multilayer CaHa & NCTF; a pan-tissue regenerative protocol -Dr Ciara ABBOTT
Complex therapy: Monopolar radiofrequency & PDLLA: Modern technology for face lifting Dr Olga ZABNENKOVA
Perioral rejuvenation with combination of non invasive treatments -Dr Juliah TBARANI OSHEA
'Combination therapy' using amino acids, polynucleotides, NeoGen plasma and LED light therapy Ms Ellie TURRELL
The multi-layered human: Designing multimodality treatment journeys for long-term outcomes Dr Simon RAVICHANDRAN
Use of botulinum toxin and a lipolytic agent in patients presenting with a pasty/puffy facial appearance - Supported by ABG Lab Prof. Dr Yana YUTSKOVSKAYA

26 JUNE

GRAND HALL 1

11:00 - 11:30

SESSION ID: 8761

Keynote address: Why we should all stop saying G’ in our lectures?

Dr Michael KANE

11:30 - 12:30

SESSION ID: 8762

Case-based learning: From initial assessment to treatment planning

60 minutes case presentation -Dr Peter VELTHUIS, Dr Tom DECATES, Dr Dalvi HUMZAH

13:30 - 15:30

SESSION ID: 8748

Rethinking injectables: New science, new standards, new outcomes

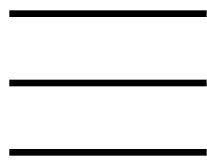

Unlocking the full potential of a versatile dermal filler
Dr Rehanna BECKHURST

Beyond PDO threads: The evolution of biostimulatory injectables with ULTRACOL®
Dr Shahin DANESHIBAHREINI

The PDO revolution, ULTRACOL®: Elevating standards in safety and efficacy
Dr Francesco LINO

26 JUNE

GRAND HALL 1

16:00 - 17:00

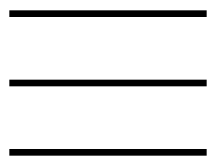

SESSION ID: 8821

Skincare: What’s in? What’s out?

Tips for upcoming year - what’s in? What’s out? Dr Uliana GOUT, Dr Jeanine DOWNIE, Dr Vladlena AVERINA, Dr Michael KANE
What will we focus on in 2027? What will the future be? What should we avoid? Dr Uliana GOUT, Dr Jeanine DOWNIE, Dr Vladlena AVERINA, Dr Michael KANE

26 JUNE

DODDINGTON FORUM

09:00 - 10:30

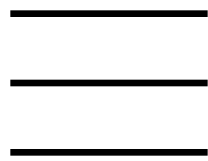

SESSION ID: 8750

The Menopausal patient in aesthetic practice: From hormones to treatment strategy

The menopausal patient as a distinct clinical entity Dr Shirin LAKHANI
Skin and structural changes in menopause Dr Emma CRAYTHORNE
Clinical decision-making in the menopausal patient Prof. Syed HAQ
The menopausal face: A multimodal treatment strategy Dr Emma RAVICHANDRAN
Key controversies, challenges, and real-world application - Discussion Dr Emma RAVICHANDRAN, Dr Emma CRAYTHORNE, Prof. Syed HAQ, Dr Shirin LAKHANI

26 JUNE

DODDINGTON FORUM

11:00 - 12:00

SESSION ID: 9225

Developing your practice

Injecting - Dr Roshan RAVINDRAN
Beyond injectables: Building a sustainable aesthetic practice - Dr Manav BAWA
Strategic storytelling as a growth driver in the medical aesthetics market - Ms. Sophie ATTWOOD
Academia - Prof. Lee SMITH
Training - Dr Dagné PUPO

12:00 - 12:30

SESSION ID: 9053

Keynote address: Fibroblasts lineage - on which stage we are successful with stimulation?

Dr Vladlena AVERINA

13:30 - 14:30

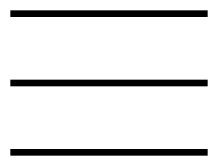

SESSION ID: 8756

Regulation, reality and reform: The future of aesthetics in the UK

Dr Roshan RAVINDRAN, Mrs Alexandra MILLS, Dr Andrew RANKIN, Prof. Lee SMITH

26 JUNE

DODDINGTON FORUM

15:00 - 15:15

SESSION ID: 9378

A new way of using ultrasound in aesthetics

Dr Vincent WONG

15:20 - 16:20

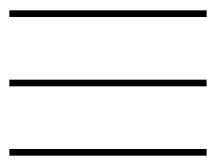

SESSION ID: 9081

Building a modern aesthetic practice: Strategy, culture & sustainable growth

Best-known beats best in the digital world. How to turn the tables - Mr Rick O’NEILL
Building a culture in a micro business that supports growth - Mr Stuart ROSE
What I would tell my younger self: Identity is strategy work - Dr Julia SEVI
Attracting the right patient: Market research, messaging and practice positioning - Dr Simon RAVICHANDRAN

27 JUNE

GRAND HALL 2

09:00 - 10:45

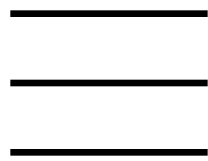

SESSION ID: 8753

Toxin Applications

The diluent dilemma: Investigating hypersensitivity in bacteriostatic botulinum toxin preparations Dr Tom DECATES
Full face as target treatment with BTA Dr Ekaterina GUTOP
Precision in practice: Botulinum toxin for masseteric hypertrophy and bruxism- Anatomy, safety and case studies Dr Vania HIRATSUKA-DALMEDO
Neurotoxins aren't created equal: A comparative review of every major toxin on the market Mr David WEIR
Using BTXA to give a true chemical brow lift Dr Tahera BHOJANI-LYNCH
Functional aesthetic use of toxin in facial palsy: Evidence, rationale and patient outcomes Dr Mariam TSIVTSIVADZE
The future is liquid: Introducing Relfydess (relabotulinumtoxintypeA) - Supported by Galderma Dr Wojciech KONCZALIK GALDERMA EST. 1981

27 JUNE

GRAND HALL 2

11:30 - 13:15

SESSION ID: 8758

Advanced Hybrid Regeneration Techniques

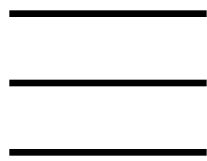

Regenerative synergies - the science and art to combining regenerative biochemical and biomechanical cues Dr Kate GOLDIE
Hybrid PDLLA+HA for biostimulation and collagen synthesis Dr Ekaterina GUTOP
Advanced hybrid regeneration techniques (biostimulant combinations) Dr Roshan RAVINDRAN
Combining PEG fillers, hybrid ha/Caha filler and devices Dr Steven LAND
From structure to cellular repair: The comprehensive approach to skin and tissue rejuvenation using tri-layer regeneration approaches Dr Mariam TSIVTSIVADZE
Reflections restored - Bioregeneration through a multilayered combination approach to facial rejuvenation Mrs Emma ROSS

This session continues on the next page

27 JUNE

GRAND HALL 2

Session continued from previous page

...

11:30 - 13:15

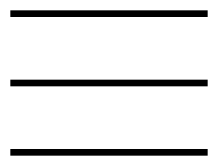

SESSION ID: 8758

Advanced Hybrid Regeneration Techniques

Hybrid regeneration with injectables and laser Dr Dalvi HUMZAH	
Evolution of nonsurgical facial rejuvenation in a surgical practice: Energy, threads, volume, and regenerative medicine (creating passive revenue for your practice) Dr Jennifer WALDEN	
Lecture supported by ABG Lab Prof. Dr Yana YUTSKOVSKAYA	
Good results or right results? Structural intelligence in the Jalupro regenerative system Dr Ibrahim Sefa ANIK	

27 JUNE

GRAND HALL 2

14:30 - 16:30

SESSION ID: 8759

Injectable approaches to tissue regeneration

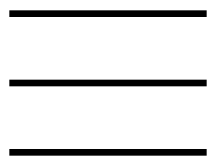

Applying the science of regenerative principles in clinical practice - Dr Kate GOLDIE
The new era of aesthetic medicine: Do fillers regenerate tissue? And how do we select the optimal one? Dr Mariam TSIVTSIVADZE
Combining forces: The art of integrated aesthetic treatments for the facial rejuvenation Dr Beatriz NICARETTA
Periorbital rejuvenation with LEBD and injections Dr Ekaterina GUTOP
Non surgical neck treatment Dr Juliah TBARANI OSHEA
The art of eye opening: A regenerative approach to periorbital rejuvenation with hyaluronic acid fillers concept - Dr Dagne PUPO
Injectable regeneration for post-traumatic tissue damage: A modern protocol Dr Salsabeel ALI

...

This session continues on the next page

27 JUNE

GRAND HALL 2

Session continued from previous page

...

14:30 - 16:30

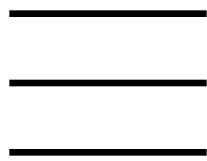

SESSION ID: 8759

Injectable approaches to tissue regeneration

Hybrid regeneration: Conducting the regenerative orchestra with Juvelook and Lenisna Dr Lisa DINLEY
Prodermis Prosculpt: A hybrid dermal filler enhancing hyaluronic acid performance through polynucleotide integration. Dr David BENTUE DE AVILA PRODERMIS™

27 JUNE

GRAND HALL 1

09:00 - 10:15

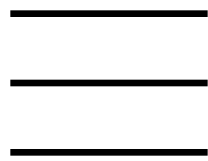

SESSION ID: 8769

Autologous treatments

Follicular unit extraction for hair restoration vs PRP/ Exosomes with microneedling Dr Jennifer WALDEN
The use of PRP and human follicle stem cells in androgenetic alopecia Prof. Dr Pietro GENTILE
Comparative study of PRP vs PRP combined with microneedling with topical nutrients in hair loss treatment -Dr Amna MALIK
Hybrid 3D face-lift under sedation: Combining SMAS redistribution with multilayer fat transfer Dr Tunc TIRYAKI
The use of fat grafting in breast augmentation and remodeling -Prof. Dr Pietro GENTILE
The latest generation tissue preservation surgery (breast enhancement) under local anaesthetic Prof. Paul BANWELL
Synthetic vs. Autologous exosomes in aesthetic medicine: clinical differences, safety trends, and future directions -Dr Shohreh GHASEMI

27 JUNE

GRAND HALL 1

10:45 - 12:15

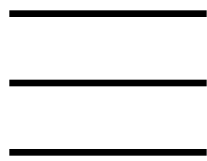

SESSION ID: 8747

Cellular response to energy delivery: Mechanisms of tissue regeneration

The cellular symphony: How energy-based devices trigger tissue regeneration -Dr Aris STERODIMAS
Review of the evidence surrounding LED phototherapy as a treatment modality for surgical patient Mrs Kate MONTEITH-ROSS
Complex therapy: Monopolar radiofrequency & PDLLA Dr Olga ZABNENKOVA
Optimize the treatment strategies of energy-based devices for neocollagenesis in long-term efficacy of Asian patients -Dr Yaojia LUO
The era of energy-based device technology and dermal fillers for facial rejuvenation: The risk / benefit ratio and implications on your future facelift Dr Jennifer WALDEN
Lasers in skin of color -Dr Jeanine DOWNIE
EBD if something goes wrong. How to avoid and manage complications after Rf microneedlig, HiFU and laser resurfacing -Dr Olga ZABNENKOVA

27 JUNE

GRAND HALL 1

13:45 - 15:00

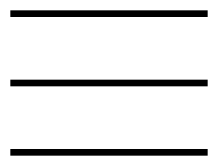

SESSION ID: 8766

The NEW aesthetic regenerative medicine paradigm: How traditional aesthetic medicine merges with longevity/anti-ageing medicine

Inner Beauty Dr Dagne PUPO
Integrating nutrition and wellness into medical aesthetics for long lasting results Ms Stephanie DAMALIS
Mitochondria status as a biomarker of skin health and how this can be used to monitor ongoing skin interventions and treatments in the anti-aging and longevity field Prof. Mark BIRCH MACHIN
The Gut-Brain-Skin axis Dr Tatyana LAPA-ENRIGHT
Melasma from inside out: A new era of holistic treatment Dr Austeja ZIBUDAITE

27 JUNE

GRAND HALL 1

15:00 - 16:30

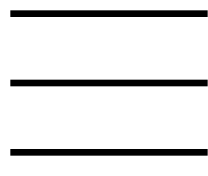

SESSION ID: 8771

Old and novel anti-ageing strategies in the practice of aesthetic regenerative medicine: From EBD and HRT to peptides and exosomes

Collagen meta-analysis - Prof. Lee SMITH
Exosome based supplements to reverse aging Dr Steven LAND
Clinical use and recent updates of exosomes: The next big thing in regenerative and aesthetic medicine Dr Tunc TIRYAKI
From stem cells and exosomes to cracking proteins Dr Xanya SOFRA
Digital metabolic twins in relation to weight management for healthy aging Dr Cyrille THINNES
HRT and GLP analogues for the aesthetic doctor Dr Theodora MANTZOURANI
Clinical and mechanistic evaluation of bovine colostrum-derived exosomes: Case reports Dr Petra BELKO
The wellness lift: Leveraging EBDs for confidence, connection, and longevity - Dr Nisha MENON

27 JUNE

DODDINGTON FORUM

09:00 – 10:00

SESSION ID: 8770

Skin health

Longevity / skin span - Dr Jeanine DOWNIE
The skin–brain axis: How skin reflects the mind - Dr Austeja ZIBUDAITE
Skin boosters - Mrs Alexandra MILLS
Acne scarring - Prof. Dr Carlos WAMBIER

10:45 – 11:45

SESSION ID: 8757

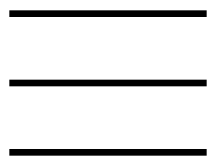

Results in practice: Clinical case studies in aesthetic refinement

What I see in practice - Dr Paris ACHARYA
Real cases, considered decisions - Dr Surbhi VIRMANI
The cases behind the results - Mr Mladen DUDUKOVIC

27 JUNE

DODDINGTON FORUM

11:45 - 12:30

SESSION ID: 8823

Can topical treatments regenerate?

Case 1 Prof. Dr Carlos WAMBIER
Case 2 Dr Uliana GOUT
Case 3 Prof. Oliver Philip KREYDEN
Can topical treatments regenerate? Prof. Dr Carlos WAMBIER, Dr Uliana GOUT, Prof. Oliver Philip KREYDEN

13:45 - 14:45

SESSION ID: 8768

AI in practice: Should we or shouldn't we?

Mr Rick O'NEILL, Dr Dalvi HUMZAH, Mr Toby MAKMEL, Mrs Kate MONTEITH-ROSS, Ms Lianne SYKES
--
